

## ALF 4004

*Alüminyum Sert Lehim Alaşımaları - Sert Lehim Teli*

### Standards

DIN 1707-100 S-ZN 98 Al 2

### Product Features and Advantages

Suitable for aluminium to aluminium and aluminium to copper brazing with low temperature and performs high capillar ability. Designed as a pipe which has non-corrosive flux in it. Thus remainings of the flux does not corrode the aluminium surface and does not need to clean flux. Non suitable for aluminium-magnesium alloys.

### Applications

It has wide range of use such as pipe connections, air conditioning and cooling, aluminium motor blocks, aluminium radiators and pipes.

### Typical Physical Analysis of the Weld Metal

Working Temperature (°C)	Density (gr/cm <sup>3</sup> )	Conductivity (Sm/mm <sup>2</sup> )
440	0.00	0

### Packaging Information

Product Code	Diameter x Length (mm)	Quantity per Box	Box Gross Weight (kg)	Boxes per Outer Box	Outer Box Gross Weight (kg)	Packaging Type
80422BKA04	2.00x500	1.00 KG	1.10	1	1.10	Carton Envelope
